OFFICE FOR UNIVERSITY RELATIONS Freedom of Information Act 2018 Year-End Review

The Freedom of Information Act (FOIA) is an Illinois statute that provides the public access to the documents and records of public bodies, including the University of Illinois System. The Illinois FOIA was enacted in 1984 and is modeled under the federal FOIA, which was enacted in 1965. Under this statute, the U of I System is a public body that must respond to most requests within a five-day period, though an extension may be taken that provides an additional five days to respond. After the five- or ten-day period, the system will provide the records (with possible redactions), or withhold the records and provide a detailed basis for the exemption. A minimum of 26 exemptions exist in the statute that serve to withhold records on the basis of such things as personal privacy, pending law enforcement investigations, trade secrets and other statutes.

As specified below, the requesters range from media outlets to former and current students.

In 2011, after the statute was subject to several substantial amendments, the process for responding to FOIA requests was centralized so the System Offices could coordinate all three universities (Urbana, Springfield and Chicago) and provide system-wide consistency in dealing with FOIA. (Presently, the Office for University Relations (OUR) processes FOIA requests made to all three universities and System Offices.) Executive Director Tom Hardy and Assistant Director Matt Rogina, a licensed attorney, coordinate this centralized processing, manage the distributed FOIA processing staff, and serve as liaison to requestors and to the Illinois Attorney General's Public Access Counselor. OUR staff consult with University legal counsel, and finalize all response letters. Matt Rogina works with a team of communications and administrative staff throughout the system, including OUR Associate Director Kirsten Ruby, to ensure proper and timely sharing of information.

Request processing is assigned based on the particular strengths and subject matter expertise, including intimate knowledge of each university, of a FOIA coordinator (all of whom have other responsibilities).

- Jaclyn Banister Urbana requests
- Jenny Fontaine Chicago requests
- Yen Vi Green Urbana and commercial requests
- o Jill Weathers Multi-campus, Springfield and System Offices requests

The OUR executive director is the signatory of response letters as chief records officer for the system.

Companies continue to use FOIA as a means to gather commercial information. Of the 188 commercial FOIA requests received last year, 24 were filed by sports information companies and at least 20 requests were submitted by commercial vendors seeking procurement and bidding information.
- In calendar year 2018, the system's FOIA website had more than 14,000 pageviews. The homepage of the FOIA website was viewed more than 5,500 times, the log page was viewed more than 2,700 times and the available records page was viewed more than 1,400 times.
- Any requestor may file with the Office of the Attorney General's Public Access Counselor (PAC) a request for review of the system's response. A request for review does not necessarily indicate any impropriety or improper handling of a request or responsive documents. FOIA responses issued by the U of I were appealed to the PAC for review 30 times in 2018. The PAC issued five determinations letters in 2018 that decided in the system's favor. The remaining 25 are under review or were determined by the PAC that no further inquiry was warranted.

¹Under section 3.2(a) (5 ILCS 140/3.2(a), a public body can treat a requester as recurrent if the requester submits more than 7 requests in 7 days. Upon the eighth request, the public body has 21 days to inform the requester that they will either provide the documents within a reasonable time or treat the request as unduly burdensome. The individual is labeled a recurrent requester for one year.

- The PAC issued a favorable determination finding that the emails of a Urbana professor sent on university email that relate to outside employment is not a public record subject to FOIA.
- The PAC issued a favorable determination finding that a former employee could not access the identities of employees who provided information to UIS police about that employee.
- The PAC issued a favorable determination finding that the system properly redacted emails that contained identifying information of students in emails that relate to student awards. Such information is subject to the personal privacy exemption under FOIA.
- The PAC issued a favorable determination finding that the system properly withheld preliminary opinions and notes prepared by the Board of Trustees to assist in formulating actions.
- The PAC issued a favorable determination finding that the system properly withheld emails between UIC College of Pharmacy employees that discussed a student matter.
- In January 2019, the Better Government Association released a study that found that the University of Illinois violated FOIA "63 percent of the time." This study ranked the system 2nd behind the City of East St. Louis in the state's top 14 FOIA violators. The system contends that this study is misleading for these reasons:
 - The study based the 63 percent off the small number of FOIA appeals that are submitted to the PAC for review and not on the system's overall number of responses. Such denials often involve student privacy, employee disciplinary matters and complex interpretations of ambiguous FOIA exemptions that have not been addressed by courts. On several occasions, an opinion was issued by the PAC that stated the system both properly and improperly asserted an exemption.
 - The Office for University Relations process all requests from the Urbana, Springfield and Chicago universities plus the System Offices. The system is unique among Illinois public bodies in terms of the large number of requests it receives and is likely to process more denials than other public bodies given the privacy that is associated with requests for student information. As such, the 63 percent is likely reflective of the high volume of requests.
 - The 2010 FOIA amendments were designed to create oversight of the FOIA process and to stop abuses such as public bodies ignoring requests, abusing the five-day deadline or withholding documents such as settlement agreements other matters of significant public interest. The system consistently adheres to the deadlines imposed by the statute and routinely discloses things such as settlement agreements, payroll information and other documents that relate to the receipt and use of public funds.
- The Office for University Relations conducts presentations for the various colleges and departments within the system. Presentations regarding FOIA and departmental responsibilities were given to the following five groups:
 - o Department of Athletics, Urbana
 - College of Medicine, Urbana
 - o College of Pharmacy, the University of Illinois at Chicago

- As is our customary practice, Executive Director Tom Hardy, Associate Director Kirsten Ruby, Assistant FOIA Director Matt Rogina, and the FOIA coordinators completed the yearly FOIA training required by the Office of the Illinois Attorney General.
- Throughout the year, the FOIA processing staff met weekly to discuss issues, processing policies, and new developments with the law. In 2018, the Office for University Relations held a March retreat in Urbana to discuss future goals. In September, the Office for University Relations held its first semi-annual meeting with the Office of University Legal Counsel to address pending and recurring matters that have legal consequences for the University. The Office for University Relations intends to have two similar meetings with the Office of the Legal Counsel in 2019 and to hold its second internal retreat in April.
